Strategic Value

In an industry where timing, pricing, and positioning dictate profitability, PMChek offers a decisive advantage. The platform equips users to:

- Optimize launch timing and mitigate risk.
- Uncover pricing anomalies and utilization shifts.
- Strengthen portfolio management and commercial strategies.
- Leverage nearly a decade of historical pricing intelligence alongside real-time analytics.

Our Mission

At PMChek, we transform complex pharmaceutical data into strategic insights that drive smarter decisions.

What We Deliver

Market Watch Alerts

Monitor pricing fluctuations, new manufacturer launches, and generic entries.

Benchmark Competition

Compare products, dosage forms, and pricing across the competitive landscape.

Spot Opportunities

Identify few-source products and market gaps for strategic entry.

Forecast with Accuracy

Access manufacturer-level revenue analytics and historical utilization data.

Set Smarter Prices

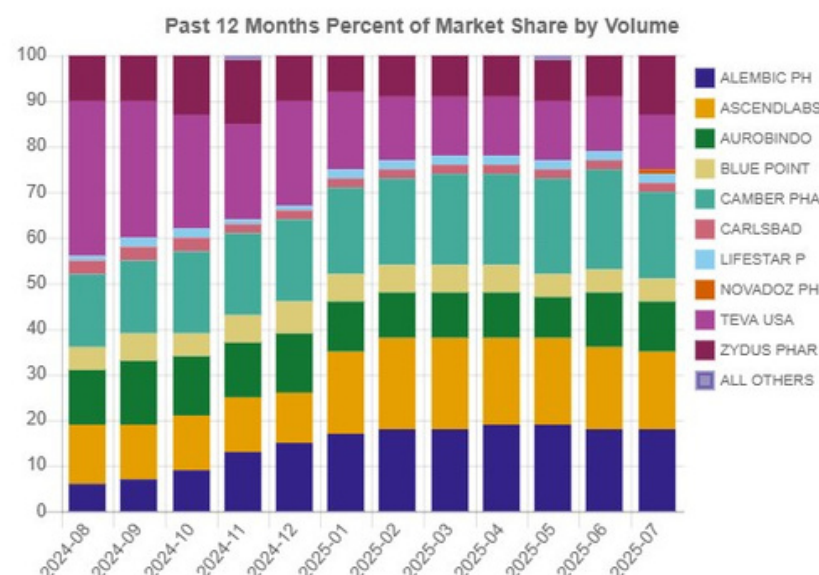

Align launch and contract strategies with reimbursement realities using WAC, AWP, MAC, NADAC, and FUL data.

Stay Current

Receive curated updates and customizable market alerts.

Big Data

- 9+ Years of Historical Data
- 20+ Stock Reports
- 30+ Dosage Forms Represented
- 1,000+ Manufacturers
- 50,000+ NDCs
- 2,000,000+ Utilization Records
- 100,000,000+ Source Data Points

Why Choose Us

PMChek is more than a data platform - it's a strategic advantage in one of the most competitive and regulated industries in the world - the U.S. pharmaceutical marketplace. From pricing data to competitive benchmarking, PMChek equips pharmaceutical professionals and investors with the confidence to act decisively.
